The Biblical Institute commenced its operations in April, 1847, since which time 160 students have graduated. The following extract from the last annual catalogue, relating to expenses, may be considered of interest:

"It is the design of the Trustees and patronizing Conferences to reduce the expenses of the students to the lowest possible sum. Hence no charge is made for tuition. The boarding house is occupied by the students free of rent, and their board and washing is secured at cost. The average cost per week has been $1 65, while the expenses of some are brought much lower by boarding themselves. The Institution makes no charges upon the students except $6 per year, for contingent expenses, upon those who occupy rooms in the Institute buildings, and $3 per year upon those who room out, payable in advance.
